## BUSINESS PARTNER CODE OF ETHICS AND CONDUCT

Since its foundation in 1958, the Elecnor Group and all of its employees have been and continue to be committed to pursuing their professional activities in keeping with the highest ethical standards and current legislation in the countries in which it operates; a commitment that is at one with its business culture and philosophy and the solid values that underpin the manner in which it does business and engages with the environment.

Elecnor Group Business Partners are key actors in the company's meeting said commitment, constituting as they do an extension of the same and a vital link in its activity chain.

For these purposes, "Business Partner" is understood to mean those physical individuals or legal entities that, by virtue of a commercial agreement, contribute in specific manner to the provision of the Group's services or the execution of the Group's projects.

Accordingly, it is the will and obligation of the Elecnor Group to spread among its Business Partners its commitment to ethical conduct and integrity in business, the defence of human, social and labour rights, employee occupational health and safety and the prevention of accidents at work, environment protection and quality.
