

Press Release

Elecnor develops 5 wind farms in La Coruña and Lugo that will provide electricity to power 45,000 households

- In 2020 Elecnor was awarded the construction, maintenance, operation and control of these farms for 64.3 million euros
- Equipped with 19 turbines, the farms will provide a total power of 74.22 MW to the grid.

Madrid, 18 January 2021.- The Spanish group for infrastructures, energy, services and telecommunications Elecnor is building 5 wind farms in Galicia for 64.3 million euros. Elecnor will also be in charge of maintaining, operating and controlling the wind farms for the first 24 months. The contract was awarded to Elecnor by Greenalia, a company active in the generation and sale of electricity from wind, photovoltaic solar and biomass energy.

The Miñón, Oul, Croa I, Croa II and Monte Tourado wind farms are located in the provinces of La Coruña and Lugo. This project entails the installation of 19 turbines, 14 of which will be installed in the province of La Coruña and the rest in Lugo. On the basis of the contracts with Enercon and Gamesa, Elecnor is responsible for the supply and installation of the wind turbines. These five wind farms will provide a total power of 74.22 MW to the grid and electricity to power 45,000 households in this region. The Miñón farm is already in the operation and maintenance stage, the construction of the Oul farm was recently finished and the remaining three farms are in the initial execution stage.

Apart from the installation of wind turbines, the contract includes the construction of two substations of 132 and 66 Kv and the installation of an 8-km high voltage overhead line. Elecnor will also carry out the installation of all the medium voltage grids and fibre-optic networks and the design and construction of the farms' civil infrastructures.

About Elecnor

Elecnor is one of Spain's leading business groups in the infrastructure, renewable energy, services and new technologies industries. With over 60 years of continuous growth and a presence in 55 countries, Elecnor focuses its activity on different industries, from electricity, gas, industrial plants, railways, telecommunications, water, control systems, construction, the environment and installation maintenance to aerospace engineering. Its strong international outlook has led it to a continuous expansion process which has opened the doors to new markets around the world, especially in Europe, North America, Central America, South America, Africa, Australia and the Middle East. Elecnor, which is listed on the Continuous Market, has a highly qualified team of professionals and a total workforce of 14,855 employees. In 2019, the company reported revenues of 2,454 million euros and a consolidated net profit of 126.4 million euros.
