Madrid, 1 October 2018.- Elecnor has stepped up its commitment to the United Nations Global Compact, the world's largest corporate sustainability and transparency initiative, by becoming a **Signatory**.

In this way, Elecnor strengthens the alignment of its business strategy with the Sustainable Development Goals (SDGs). Elecnor's infrastructure, energy, water and environment projects are helping to address the global challenges posed by the SDGs, such as climate change and reducing the energy divide.

In this way, Elecnor continues to strengthen and consolidate its ethical commitment in all spheres of its activity among its employees and stakeholders.
